

A woman wearing a white hard hat, orange safety vest, and face mask is standing on a large array of solar panels. She is holding a blue tablet and a walkie-talkie. The background shows a vast solar farm under a clear blue sky with mountains in the distance.

5B Portfolio

KEY PROJECTS

5B project summary

7

countries with 5B Maverick
solar farms

70.7 MWp

on the ground

81

projects

2,122

5B Mavericks deployed*

*mechanical installation of 5B Maverick arrays

ATACAMA DESERT

Chile

Remote Solar Farm

Grid connected

5B customer: Andes Solar II SpA

Deployment partner: SolarMovil

10.6 MWp (225 5B Mavericks) deployed in **43 days**

5B set a speed record of 1.1 MWp+ in 1 day with a crew of only 10 people

MADRE VIEJA

Panama

Pilot Project

On grid export

5B customer: Enel Green Power

Deployment partner: Efitec SA

1.2 MWp (33 5B Mavericks) deployed in **3.5 days**
with a team of 9

HAPPY VALLEY

South Australia

Water Treatment Plant

Grid connected, behind-the-meter

5B customer: Enerven | End user: SA Water
Deployment partner: Platinum Electricians Dubbo

12.8 MWp (375 5B Mavericks) deployed in **52 days**
with a team of 13

WONMUNNA

Western Australia

Iron Ore Mine

Off-grid

5B customer: UON | End user: Mineral Resources

Deployment partner: UON

2.1 MWp (45 5B Mavericks) deployed in **2 weeks**
with a team of 5

KING OF THE HILL

Western Australia

Goldfields Mine

Off-grid

5B customer: Zenith Energy

Deployment partner: Zenith Energy

2.04 MWp (42 5B Mavericks) deployed in **8 days**
with a team of 5

COLÓN

Panama

Power Plant

Grid connected, behind-the-meter

5B customer: AES Panama

Deployment partner: Efitec SA

1.9 MWp (62 5B Mavericks) deployed in **10 days**
with a team of 7

PORT BONYTHON

South Australia

Hydrocarbon Processing Plant

Grid connected, behind-the-meter

5B customer: AGL Energy | End user: Santos

Deployment: 5B

2.12 MWp (62 5B Mavericks) deployed in **21 days**
with a team of 3

CAROSUE DAM: Phase I

Western Australia

Gold Mine

Off-grid

5B customer: Nomadic Energy | End user: Northern Star

Deployment: 5B

An aerial photograph showing a vast, rectangular array of solar panels installed in a flat, arid landscape with reddish-brown soil. The panels are arranged in neat, parallel rows, creating a strong geometric pattern. In the background, there is a dense line of low-lying desert vegetation. A few small structures and vehicles are visible near the edge of the solar array. The sky is clear and blue.

1 MWp (62 5B Mavericks) deployed in **15 days**
with a team of 3

ALBURY LANDFILL

New South Wales, Australia

Landfill Biogas Plant

Grid connected, behind-the-meter

5B customer: Energy Power Systems Australia

End user: Joule Energy / LMS | Deployment: 5B

1.5 MWp (44 5B Mavericks) deployed in **13 days**
with a team of 3

BORROLOOLA

Northern Territory, Australia
Remote Community Solar Farm
Off-grid

5B customer: Power & Water Corporation
Deployment partner: AG Murf

653 kWp (53 5B Mavericks) deployed in **7.5 days**
with a team of 3

WODONGA

Victoria, Australia

Electric Vehicle Charging Station

Grid connected, behind-the-meter

5B customer: Chargefox

Deployment: 5B

98 kWp (9 5B Mavericks) deployed in **1 morning**
with a team of 2
